Subject: As a 20 year computer user, I want to voice my disapproval

As a 20 year computer user, I want to voice my disapproval of all the attacks on Microsoft. The state of our economy is in part do the the JHAD the Justice Department has made on Microsoft. Consider, if not for Mircosoft you would not likly be able to run your computer. If you think not just try using DOS, or UNIX or the 20 other operating sustem's on the market. Windows made it so any idiot can run a computer which caused millions of people to buy a computer. A few jealous competitors and sympathetic government bureaucrats is not a good reason to wrack havoc on a America dream company.
